

A small sensation

Spraying in any position: Foxy Plus

Everybody knows the problem: If you turn a trigger sprayer on its side no liquid comes out. The new Foxy Plus from Birchmeier provides the best possible solution. You can spray from any position: above your head, sideways, at an angle of 90 degrees. The new Foxy Plus sprays from any position – a small, fine sensation! Use this practical, quality sprayer that has many uses.

Closable and adjustable nozzle for spraying mist and jet (up to 15 bar piston pressure)

Rests comfortably in the hand thanks to the shaped grip and wide hand support

Robust, durable spraying head with an ideal spraying range

Impact resistant 0,5 l container with 100 ml scale

Swiss Quality

A strong partner for spraying, dosing and foaming

The manufacture of spraying, dosing and foaming equipment is the basis of our products and services. The long-term growth of application-orientated functionality, has been always our major target. The reliability of our products, but also our customer orientated business policy and the international product availability, are central to our activities. For your benefit.

We are able to offer you the following:

- Leading products for professional and leisure use.
- A broad range of equipment for spraying, dosing and foaming.
- Quality Swiss made products, which ensure a long life.
- Guaranteed availability of spare parts for up to 10 years.
- Global trade as a partnership.
- World-wide and multi-lingual business expertise.

Thanks to our «in house» production facilities, we are very flexible and in control of our processes.

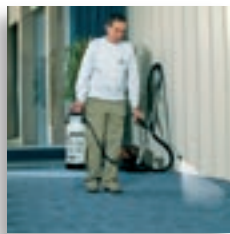

Our R & D department enables product modifications and refinements to be made to suit the requirements of the users.

**Birchmeier, the better choice.
For your advantage.**

for garden and agriculture

for industry
