# *Level*

## ANTI - FOAMER

**General Information:** *Level* Anti-Foamer is a concentrated antifoaming agent for use in agricultural and industrial spray solutions. It works by reducing the surface tension of the spray solution, which stops excessive foaming during mixing and agitation. Reducing foam helps to prevent contamination of outside of spray tank with spray solution and makes spray tank filling easier.

**Application guidelines:** Use *Level* Anti-Foamer when it is necessary to reduce foaming in the spray tank. Use 5-10 ml/400L tank capacity.

### CAUTION

Keep out of reach of children.

Avoid eye and skin contact.

Avoid ingestion, breathing vapors or spray mist. Do not Freeze.

Follow and all label directions and cautions.

**Disposal:** Do not reuse this container. Triple rinse container and place rinse water in tank. Dispose of container in accordance with local regulations.

**Warranty:** Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the directions under normal conditions of use; but neither this product nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller and the buyer assumes the risk of any such risk.

**Net Contents: 946ml**
