

Teejet Lawn Spray Gun

Teejet Lawn Spray Gun is similar to the popular Lesco Gun. The principle use and droplet sizes are the same. The nozzles are interchangeable.

The Teejet gun features a trigger guard, which is a great idea.

Yearly maintenance is required. Repair Kits are readily available.

This gun is considerably cheaper than the Lesco Gun. This is evident in its longevity, a couple of years, no problem. The gun should be replaced in the 3rd year.

The Grey 1.5 GPM nozzle is the most popular with the Teejet gun.
