

DECORATIVE FOUNTAINS 6100

You've cleaned your pond with Nature's Pond 3-Step Program, now complete the look with a Decorative Fountain and make your pond into a natural work of art!

A crystal clear pond is something to be proud of! Whether you're a five star golf course or a homeowner with a fish pond, a Koenders Decorative Fountain is the perfect finishing touch to a clean and healthy pond.

We have designed one ultra-durable, energy-efficient fountain platform, with four different nozzles, giving you four fountains in one! This standardization improves availability and affordability for our customers. Our four unique display patterns allow you to choose the perfect design for your pond, and then change it up in minutes! Looking for evening ambiance? Choose our Decorative Fountain with LED Lighting Kit and let the lights and 4 color options illuminate your pond.

Our fountains do more than just decorate your pond. The increased water circulation and surface agitation helps prevent insect nesting and breeding, including that of disease carrying mosquitoes! Leave the bug spray and mosquito netting behind this summer, by installing a beautiful Koenders Decorative Fountain.

DECORATIVE FOUNTAIN 6100 FEATURES

- ✓ Pump: Pumps over 6100 gallons per hour, Standard 115V, just over 500 watts (max), 4.3 amps (may be less depending on nozzle), durable, non-corrosive outer housing

INCLUDED!**

FACTORS TO CONSIDER WHEN CHOOSING A DECORATIVE FOUNTAIN:

IS YOUR FOUNTAIN DURABLE?

Durability depends on two things: the quality of materials used, and the proper engineering behind the water pump itself. All of our materials are designed to be longlasting; our UV protected, high density plastic means less wear and tear, and our high-impact non-corrosive outer housing provides an extra layer of protection to keep your pump working year after year.

IS YOUR FOUNTAIN ENERGY EFFICIENT?

All of our Koenders Water Solutions products are designed to be energy efficient, including our decorative fountains. We have established a standard, efficient 1/2 horsepower motor that maintains low operating costs. The included outdoor timer ensures that your fountain is only running when you want it to!

IS YOUR FOUNTAIN VERSATILE?

We have developed our fountain to have maximum versatility without sacrificing quality. We've ensured that our fountains work in all types of water bodies from effluent ponds, golf courses and city parks to fish ponds and small residential swimming holes.

IS YOUR FOUNTAIN COMPLETE?

Koenders sells each of its fountains as a complete package. Our fountain packages have everything you need, such as durable anchor line, an outdoor timer and even multiple design nozzles, so you don't have to worry about buying extra accessories - it's all included!

NOTE: THE NATIONAL ELECTRIC CODE REQUIRES THAT A GROUND FAULT CIRCUIT INTERRUPTER (GCFI) BE USED IN ALL FOUNTAIN PUMPS AND POND EQUIPMENT.
