

4-IN-ONE

PLUMBING, SEPTIC & SEWAGE

Nature's Pond '4-in-One Plumbing, Septic & Sewage' is a highly concentrated mix of beneficial bacteria and enzymes suspended in purified water - a simple, 'Ready-To-Use', safe and versatile product designed to clean all plumbing and septic systems right from dishwashers and washing machines to the plumbing that feeds septic and sewage such as kitchen sinks, toilets, drains in barns and everywhere else. Its liquid form protects the bacteria from heat, cold and humidity, extending the shelf life to 24-36 months.

MANAGE YOUR PLUMBING SYSTEMS AND INFRASTRUCTURE IN THE HOME AND ON THE FARM

This blend has unique capabilities which enhances the natural metabolism of Fats, Oils and Greases (FOG) of human, animal and plant origin. Over 70% of plumbing issues such as odors and clogs are derived from excess FOG and organic waste. FOG's and organic waste also have an impact on downstream water treatment, whether that be septic and sewage in rural areas or city water treatment facilities. FOGs, especially, can deplete oxygen levels in receiving waters, clog sewage systems by restricting capacity and can block pipes (Fatbergs) and damage equipment resulting in treatment facility down time.

Nature's Pond "4 IN ONE" naturally formulated blend of bacteria has billions of CFU (colony forming units of bacteria) per/gal which lines the plumbing to ensure nothing sticks to the walls of the pipes. It consumes the FOGs and other organic matter which would otherwise remain in the plumbing and build up causing back odors and clogs.

"4 IN ONE" is also designed for the efficient bio-degradation of organic solids and waste of organic matter in composting wastewater lagoons, sewage storage, septic tanks, and other polluted bodies of water of all sizes that need remediation. In addition, this blend of bacteria includes a special bacterial culture that consumes harmful phosphates that are a major source of pollution into our ground and surface water. Phosphates are causing unprecedented levels of algae blooms in some of the largest fresh water resources in the world even the Great Lakes.

PLUMBING AND SEPTIC TOO - MANAGE YOUR SEPTIC SAFELY AND EFFECTIVELY WITH NATURE'S POND '4-IN-ONE PLUMBING, SEPTIC & SEWAGE'

A key benefit to Nature's Pond 4 In ONE is the fact that as it cleans the plumbing it also is extremely beneficial for septic and sewage management for its bacteria has a huge impact on the reduction of organic waste. The need for frequent removal or reduction of waste due to volume capacity limitations is reduced up to 50%. Sewage lagoon dredging and pumping out septic holding-tanks is costly and time-consuming. To manage this efficiently and cost-effectively, choose Nature's Pond '4-in-One'.

WHO SHOULD USE NATURE'S POND '4-IN-ONE PLUMBING, SEPTIC & SEWAGE'?

Nature's Pond '4-in-One' blend is specifically designed for use across a wide range of applications in The Residential, Farm, Industrial, Municipal and Commercial Sectors – where ever there is plumbing, dishwashers, washing machines and drains

OTHER USES:

- ✓ Rural Septic Systems and Sewage Lagoons
- ✓ Farm Sewage and Manure Pits
- ✓ Portable and Outdoor Toilets
- ✓ Barn Drains and Sinks
- ✓ Recreational Vehicles and Trailers
- ✓ Restaurants and Commercial Cafeterias
- ✓ Sinks, Drains, Traps, Vegetable and Meat Processing Plants

KEY BENEFITS:

- ✓ Natural, Safe and Effective and reduces foul odors
- ✓ Keeps plumbing pipes open and clean with out using corrosive acids that harm plumbing and kills off beneficial bacteria in septic and sewage
- ✓ Reduces organic waste and speeds up the decomposition process
- ✓ Reduces harmful phosphates that pollute ground water, soil, rivers and lakes
- ✓ Reduces Septic & Sewage Management expenses caused by dredging, pumping & removal of organic solids
- ✓ Reduces costs of septic equipment replacement caused by treatments using harsh and corrosive chemicals
- ✓ Simple to use
- ✓ Environmentally-friendly

APPLICATION RATES

Application	Rate
Dishwashers and Washing Machines	Apply 0.25L (1/4 quart) of undiluted Nature's Pond 4-In-One every 6-8 weeks on rinse cycle with machines empty of clothes or dishes.
Household Toilets, Sinks and Drains	Apply 1L (1 quart) of undiluted Nature's Pond 4-In-One every 2-3 months – flush half down the toilets and half down the kitchen sinks. Double this amount for very high use septic systems.
Farm, Manure Pits and Sewage Lagoons	Apply 4L (1 Gal) per ¼ acre (4ft deep), dilute 10:1 with water before applying. Repeat once every month during temperatures 50°F / 10°C or higher.
Municipal Sewage Lagoons and Wastewater Treatment Facilities	Apply 4L (1 Gal) per ¼ acre (4ft deep), dilute 10:1 with water before applying. Repeat once every month during temperatures 50°F / 10°C or higher.
Outhouse Toilets (not hooked up to septic)	Mix 0.25L (1/4 quart) of Nature's Pond 4-In-One with 10L (2.5 Gals) of water and pour into the outhouse pit to wet the entire hole. Repeat every 2-3 weeks.
Portable Outdoor Toilets	Apply 1L (1 quart) of undiluted Nature's Pond 4-In-One into holding tanks up to 6000L / 1500 Gals after each cleaning. For reduced odors in frequently used toilets, apply an additional 0.25
Recreational Vehicles	After each waste tank empty, pour 0.25L (1/4 quart) of Nature's Pond 4-In-One down the toilet or drain and flush. Repeat every time the waste tank is emptied.
Restaurants and Cafeterias Sinks and Drains	Apply 0.125L (1/8 quart) of undiluted Nature's Pond 4-In-One into the main drain or sink each day.
Food Processing Plant (Vegetable & Meats), Busy Barns: Hogs, Chickens and Cows	Apply 0.125L (1/8 quart) of undiluted Nature's Pond 4-In-One into the main drain or sink each day.

NATURE'S POND '4-IN-ONE' IS YOUR PRODUCT OF CHOICE FOR PLUMBING AND BIO-REMEDIATION:

- ✓ Reduction in Fats, Oils & Greases (FOG) build up in plumbing & infrastructure
- ✓ Reduction foul odors
- ✓ Reduction in Biological Oxygen Demand (BOD)- the amount of dissolved oxygen required by micro-organisms to break down organic matter.
- ✓ Reduction in Chemical Oxidation Demand (COD)- the amount of oxygen which is needed for the oxidation of all organic substances in water.
- ✓ Reduction in Total Suspended Solids (TSS) - the amount of particles larger than 2 microns present in water.
- ✓ Reduction in Turbidity and organic load in your septic and wastewater treatment
- ✓ Reduction in organics solids of up 50% over a 12 month period when used as directed.

AUTOMATE THE CLEANING PROCESS WITH KOENDERS 'ANYWHERE, ANYTIME' DISPENSING SYSTEM

Koenders innovative 'Anywhere, Anytime' dispensing system dispenses Nature's Pond 4-In-One Plumbing, Septic & Sewage at pre-determined times, automating the process of treating sinks, drains, septic and sewage systems.

Use Anywhere, Any time! Indoor or Outdoor! No Electricity Required! **Easy, Convenient, Affordable and One Less Chore to Remember!**
