

NATURE'S POND CONDITIONER

Excess nutrient load is a dangerous and costly problem plaguing ponds and lakes across North America and beyond. Industrial pollutants, fertilizer run off, fish and animal waste and some household detergents flow into our bodies of water, dramatically increasing the nutrient load. These increased levels lead to pond sludge build-up, murky water and algae blooms, including toxic blue-green algae.

Our complete, all-natural 3-Step Pond Care Program, including pond conditioner, aeration and manual aquatic plant removal, is designed to address nutrient pollution at its source, to give you clean, clear water that lasts. Nature's Pond Conditioner is an all-natural blend of beneficial bacteria, enzymes, plant extracts and a food grade dye, which works to break down and consume excess nutrient load in your pond or lake. Nature's Pond Conditioner is an all-in-one product, meaning that you can easily care for your pond with ONE solution. Our concentrated and proprietary blend of beneficial bacteria, enzymes and plant extracts aggressively break up and consume the sludge, organic runoff and debris along your shoreline and at the bottom of your pond, while our food-grade dye enhances the color of your pond or lake.

MATERIAL SAFETY DATA

INGREDIENTS

Surfactants 1-2%, Opacifier
0.3%, Dispersant 0.15%, Fragrance 0%,
Preservatives 0% (Fall/Winter 0.075%),
Bacteria/Enzymes

PHYSICAL DATA

Boiling Point: 212°F/100°C

Specific Gravity: 1.002

Percent Volatile: 0%

Soluble in Water

Vapor Density: N/A

Evaporation Rate: N/A

Appearance/Odor: Blue-Green/Citric

FIRE AND EXPLOSION HAZARD DATA

Flashpoint: Non-Flammable

Extinguishing Media: N/A

SPECIAL FIRE FIGHTING PROCEDURES

None

NATURE'S POND CONDITIONER FEATURES

- ✓ Cleans and clears water
- ✓ Reduces pond sludge by up to 12 inches/year
- ✓ Reduces foul odors
- ✓ Enhances natural color of water
- ✓ Improves water quality for healthier fish and livestock
- ✓ Seasonal applications keep water healthy all year
- ✓ Prevents off-gassing and fish kill
- ✓ Lessens potential of insect breeding
- ✓ Easy to apply - just pour it in according to directions
- ✓ All-in-one treatment eliminates the need for multiple pond treatment products
- ✓ All-natural and safe for people, pets, birds, fish, livestock and wildlife
- ✓ Can be used after herbicide or algaecide treatment to consume decaying organic matter and prevent pond sludge build up

NATURE'S POND CONDITIONER

HOW MUCH POND CONDITIONER DO I NEED?

THIS IS A QUESTION WE HEAR ALL THE TIME. FIRST, FIGURE OUT THE SURFACE AREA OF YOUR POND. NEXT, FIGURE OUT THE DEPTH OF YOUR POND. NOW YOU CAN USE OUR ESTIMATION GUIDE TO DETERMINE HOW MUCH NPC YOU NEED!

EASY TO APPLY

AERATED PONDS: JUST POUR BOTTLE CONTENTS NEAR AERATION BUBBLES.
UN-AERATED PONDS: DILUTE IN A RATIO OF 10 GALLONS OF WATER TO 1 GALLON OF CONCENTRATE AND JUST POUR IT IN THROUGHOUT YOUR POND

TREATMENT RECOMMENDATION:

Surface Area:

Up to 50ft by 50ft
(60,000 Gallons)
Use: 1 Quart

Up to 1/4 Acre
(240,000 Gallons)
Use: 1 Gallon

Up to 1.5 Acres
(960,000 Gallons)
Use: 5 Gallons

Depth:

5-6ft: times
treatment by one

10-12ft: times
treatment by two

15-17ft: times
treatment by three

TAILOR YOUR POND'S TREATMENT ACCORDING TO THE CLIMATE:

3-4
treatments
per year:
March, May,
July,
September

2-3
treatments
per year:
May, July,
September

1-2
treatments
per year:
June,
September

Additional Information: Storage of product below 32°F (0°C) may result in layering. Shake well before using. Swimming, fishing, and irrigation can be done immediately after application.

IMPORTANT: Exercise normal hygiene practices when using bioactive products. Keep out of reach of children.

Disclaimer: A specific, safe, and effective bacteria formulates the blend of ingredients in Nature's Pond Conditioner and Nature's Pond Conditioner Ultra Concentrate. All the microbial products, liquid and dry, are comprised of safe, non-pathogenic organisms included on the USEPA toxic substance control act (TSCA) inventory of natural occurring organisms and in the Canadian Domestic Substances List (DSL). All products used are bio-degradable, leaving no hazardous or complex residues. Organisms used in NPC are recognized as safe for humans, livestock, fish and all other animal life. NPC is meant to be used for irrigation, recreational and decorative ponds/lakes and has a suggested application depending on the size of the water body that you are treating. Use as directed and use normal hygiene practices.

TO ORDER

Nature's Pond Conditioner Spring/Summer:

Size: 1 Quart

SKU: 30084 UPC Code: 888935-00251-7

Weight: 2.4 lbs, Dimensions: 5" x 2.5" x 7.5"

Size: 1 Gallon

SKU: 30086 UPC Code: 888935-00303-3

Weight: 9.9 lbs, Dimensions: 5.5" x 7" x 12"

Size: 5 Gallon

SKU: 30125 UPC Code: 888935-00309-5

Weight: 50 lbs, Dimensions: 10" x 12" x 15"

Nature's Pond Conditioner Fall/Winter:

Size: 1 Quart

SKU: 30084X UPC Code: 888935-00310-1

Weight: 2.4 lbs, Dimensions: 5" x 2.5" x 7.5"

Size: 1 Gallon

SKU: 30086X UPC Code: 888935-00311-8

Weight: 9.9 lbs, Dimensions: 5.5" x 7" x 12"

Size: 5 Gallon

SKU: 30125X UPC Code: 888935-00312-5

Weight: 50 lbs, Dimensions: 10" x 12" x 15"
